## Sanitary CCTV Inspections

Cochrane is caring for utility assets through proactive maintenance of utility infrastructure.

In coming weeks, crews will be conducting Closed Circuit TV inspections of Town-owned sanitary sewers through remote-operated camera exploration of pipes to inspect for breaks, cracks, or sags.

This work will progress throughout Cochrane, with minimal traffic impacts as motorists will be able to pass through the work area. Service interruptions are not anticipated.

What you need to know as a homeowner:

- Please obey 'No Parking' signs on roadways.
- Keep your toilet lid down. During the inspection air occasionally vents into a home through the sewer service line. Water in the toilet bowl may bubble or splash out of the bowl. If you observe unusual odors in your home, run water into your drains to flush the lines.
