

# Town of Cochrane

1999 Municipal Census

Summary Report

August 1999

# Town of Cochrane 1999 Municipal Census

Summary Report – August 1999

---

## ➤ Introduction

The 1999 Municipal Census was conducted in the provincially legislated period between April 1, 1999 and June 30, 1999.

Census questions were developed and agreed upon by all Town of Cochrane departments.

It should be noted that a municipality does not have the authority to make census participation mandatory. Residents have the right to refuse to answer any, or all, of the census questions.

The final population figure determined by the census is 10,391. This information has been submitted to Alberta Municipal Affairs for confirmation and it is expected that an official declaration will be issued by that department in mid-September.

Information provided in this Summary Report represents the Town of Cochrane as a whole. Census information is also available on gender/age of residents and on specific areas within the municipality.
